01 Identity card

UBS: 30 years old and firmly focused on the future

HISTORY

UBS was founded in 1995 thanks to the enthusiasm and efforts of local elected officials to establish a university in southern Brittany.

POSTIONING

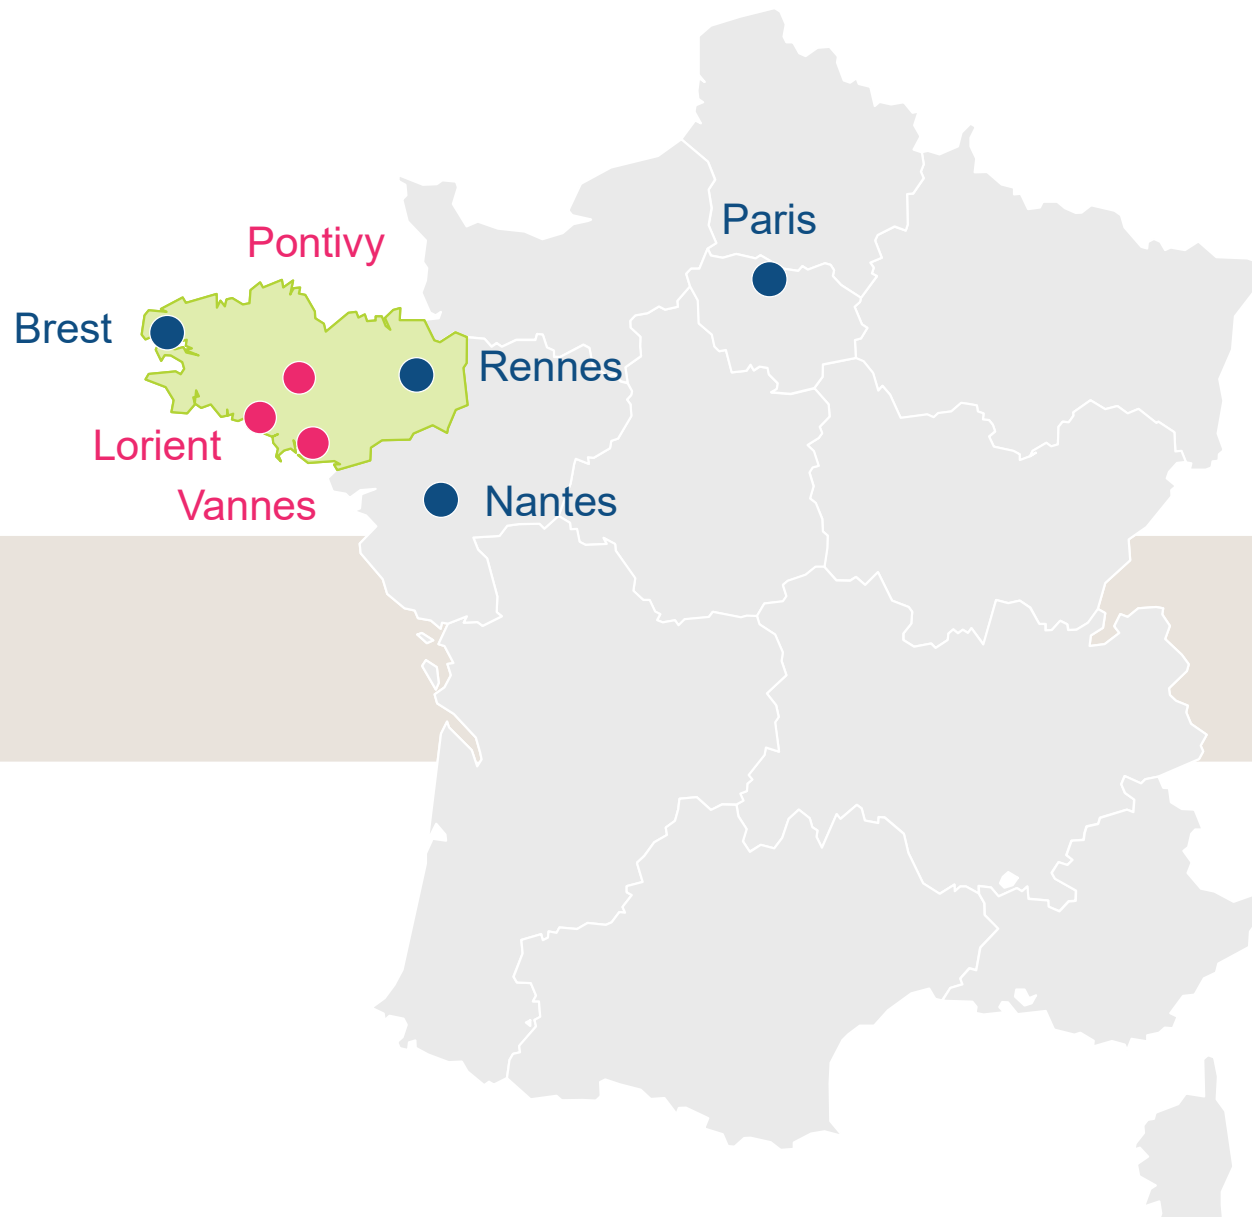

Galvanized by Brittany's creative and socially committed identity, UBS stands out for its entrepreneurial and experimental spirit.

MANIFESTO

The future is built on knowledge, motivation, and passion. At UBS we believe that aspiration is the driving force behind success: the aspiration to learn, the aspiration to experiment, and the aspiration to transmit.

With us, education opens the doors to the world

The aspiration to work with others

Our international strategy combines education and research

More **than 250 active international agreements**

Our students, faculty, faculty-researchers, and administrative staff are all encouraged to participate in exchange programs.

The aspiration to discover the world

More than **90 ERASMUS+ partners**

Nearly **500 spots** available for international exchange programs each year.

Our students study in **17 European countries.**

The aspiration to be welcoming

More than **1,000 international** students are enrolled at UBS across all our programs, from French-language programs to doctoral studies.

International doctoral students and postdocs in our research laboratories play a major role in enhancing UBS's reputation.

05 The aspiration to build the future

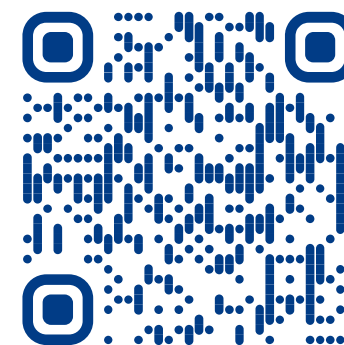

Writing the future

Campus of Transition

L'Université Bretagne Sud is committed to transition. Rooted in its coastal region, it trains and innovates to address climate and societal challenges. Here cooperation and respect for life guide our actions as we build a sustainable future.

David Menier
President of l'UBS
